

Dockets Management Branch (HFA-305) 09
Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,
I OBJECT to the definition of "inordinate amount" which restricts the availability
and the right to obtain medically necessary compounded medications by limiting
the number of prescriptions that can be shipped across state lines from specialized
compounding pharmacies.

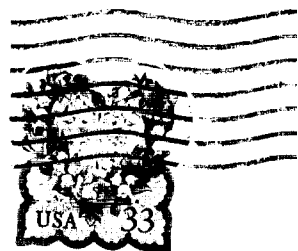

Nancy C. Troia

COMMENTS: I strongly object to this type of
control because it limits our constitutional
right to free enterprise as well as limits
the affordability of prescriptions I need.
When I went to a local pharmacy to fill my
prescription the cost was triple because of the
time involved in preparing a compounding prescription.
Because I can go to an out of state compounding
pharmacy which does only compounding prescriptions
as my natural progesterone the company is
set up to accommodate large quantities, thus the
cost to the patient is considerably less. I appeal to
your humanness to see the logic of allowing
the average American to get the medication needed.
How can you sit in judgment of what's an inordinate amount.
Please fold, seal, and mail by March 22
You're playing God.
versus the huge pharmaceutical companies getting wealthier. C 1182
Thank you, Nancy Troia
